Introduction to BEST

BEST (BSE Electronic Smart Trader) is a complete trading solution for Members of BSE, NSE, MCX and NCDEX .The software has been developed to provide an integrated system for trading and risk management. This system has been deployed and being used in some of the leading brokerage houses in India.

BEST Investor Web

BEST Investor Web allows investors to configure their favorite securities in the Market watch. Entering orders online with **BEST Investor Web** is fast, convenient and secure mode for trading activities. User will be able to add the scrips/contract, delete the scrips/contract, view the market picture for the scrip/contract, user will be able to view contract information, view order book, view trade book, view positions, view quotes, view charts in this window. The investor can place order by entering the Exchange, Settlement Type, Security, Price and Quantity. To place Order for a particular Security investors can either select the Security by clicking in the radio button provided if the security is added in the Market watch or user can directly select scrip/contract from the Put Order window.

BEST Investor Web gives the Investor Clients of the Brokerage House the convenience of secure and real time access to news, quotes, and trading. It allows the investor to do all the things that are possible from a Trading Work Station and more. For example the investor would be able to

- Place Orders
- Modify, Cancel Orders
- View Order Book
- View Trade Book
- View Quotes
- View Intra-day Charts
- View Market Picture (MBO-MBP)
- Configure Market Watch
- View Exposure Reports
- View Back Office Reports
- View Real Time News

Product Highlights:

BEST Web offers an investor with fast, reliable service and support and an extensive product offering. For getting logged in the BEST Web client has to login with mentioning

BEST – Investor Browser

login id and password. After entering the login password client has to fulfill Two FA authentication policy. Login password is in encrypted format. All critical parts of the web site are SSL (Secure Socket Layer) enabled and all interaction is fully encrypted.

BEST browser provides 128 bit encryption methodologies for data transformation between different nodes in our middleware. This ensures the data transfer from client browser to server is in encrypted format. The Password stored in database as an encrypted format with 128 bit encryption. The algorithm used for encryption is a propriety algorithm.

1. Login

Once the user enters the trading website, he must login to perform the above-mentioned trading functions. The following details must be entered to login:

The screenshot shows the login interface for BEST (BSE Electronic Smart Trader). It includes a header with the logo, a central login form with fields for Member ID and User ID, and buttons for Sign In and Reset. A footer contains browser compatibility information and a Useful Links link.

User Name:	The Client Name or Login Id of the Client is to be entered.
Password:	The corresponding password for the Client Name must be entered.

- a) In case the user forgets his login password, he can use the '**Forgot Password**' link.
- b) Once the appropriate login credentials are entered, the user must click on '**Sign In**' to login.

Two Factor Authentication login process:

Two Factor Authentication login process is used to verify the authentication of the valid user while Logging in. Two Factor Authentication process is implemented in two ways.

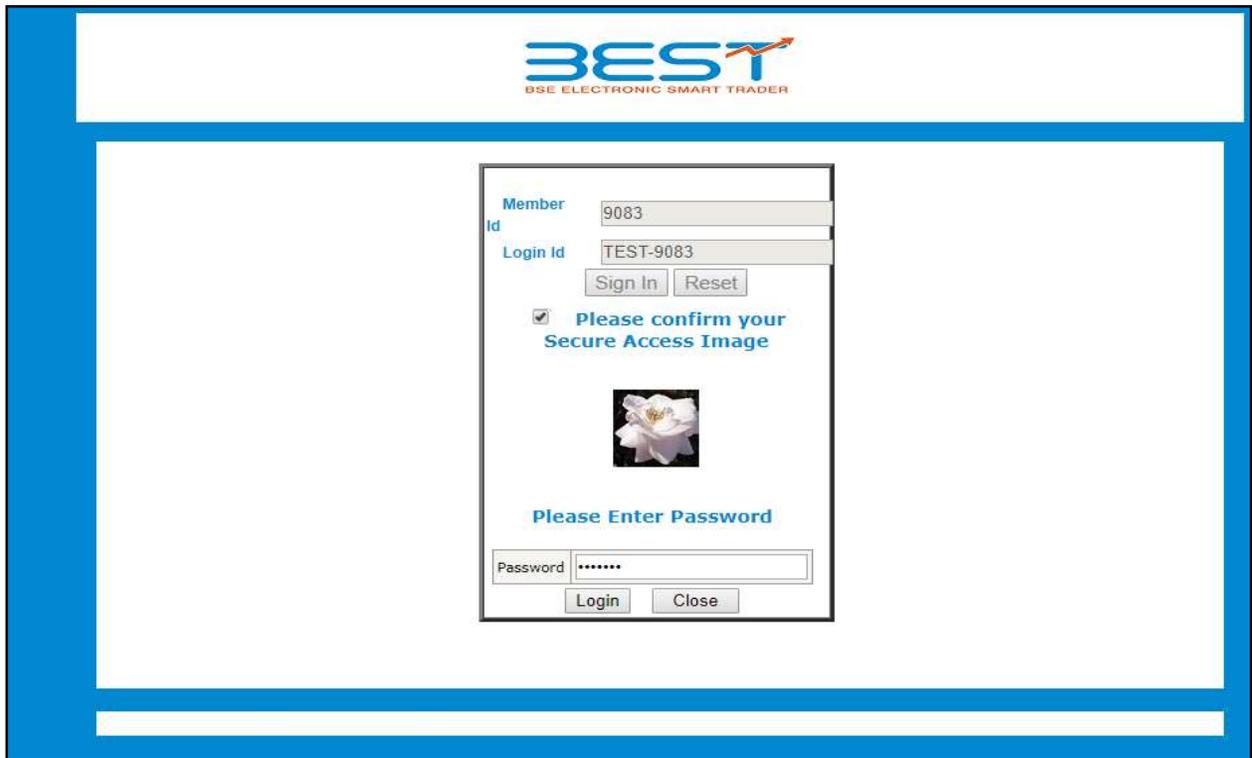

BEST – Investor Browser

- a) Question and Answer
- b) One Time Password

Steps to Implement Two Factor Authentications:

Step 1:- User has to enter the login id provided in the Box shown below.

On successful authentication of login ID the user will be able to enter the Password as shown in the below diagram.

The screenshot shows the BEST logo at the top center, with the text "BSE ELECTRONIC SMART TRADER" below it. In the center, there is a modal box with the following fields and buttons:

- Member Id: 9083
- Login Id: TEST-9083
- Buttons: Sign In, Reset
- Checkbox: Please confirm your Secure Access Image
- Image: A white flower image.
- Text: Please Enter Password
- Password field: Password *****
- Buttons: Login, Close

Step 2:- User needs to select image and has to enter the password and then click on login button. If user is login in for first time in system then user needs to set the image from the images and then answers the five questions out of the question asked by the system.

The screenshot shows the BEST logo at the top left. The main heading is "2FA Authentication". Below it, there are two input fields:

- Member Id: 9083
- Login Id: TEST-9083

Below these fields, there is a heading "Please answer the following questions and proceed" followed by two questions with input fields:

- Last four digits of your driving License number? (e.g. 1234, 9876, etc)
- Son's Birthplace? (e.g. Pune , Delhi, etc)

At the bottom, there is a "Submit" button.

BEST – Investor Browser

Step 3: After entering the correct answers to the questions given and on successful authentication of the above steps, the user will get logged in to his account.

Step 4: System will generate One Time Password and this will be sent via SMS on the registered mobile number or provide the random questions and answers to user. User has to answer any 5 questions and must remember the answers to these questions

Step 5:-On Successful Login, system will provide the One Time Password or answers to the questions based on user input. This would be verified by System

E.g.- If user is answering the 5 questions on first login, the system will ask the same questions, on all consecutive logins. The user must answer the 2 questions that are asked for, among the 5 selected questions

2. Market Watch

BEST Web allows investors to configure their favorite securities in the Market watch. For accessing the Market Watch window, the user has to click on the Trade Tab → select the Market Watch option, or click on the 'Market Watch' icon on the home page. After market watch window gets opened, the user needs to click on Set MW (Market Watch) option given in the Tab of market watch window to create a new profile. In the Set Market Watch window the user needs to click on **Create MW**. The user must enter the desired market-watch name in the box provided for the same and click on **Create**. The following window will appear from where the user can select the contracts that are to be added to his market-watch.

2.2 Ticker

The ticker window displays the prices of securities on a real time basis. The investor can customize the ticker to display only the securities in which user is interested. Once the Investor client click on the default ticker it will start displaying the latest information of the Securities at the bottom of the page. **BEST Web** allows the investor to select one of his portfolios to be the default ticker.

3. Order Entry Dialog

User will be able to place the buy orders by specifying the symbol name, quantity, price and then click on submit button.

3.1 Buy Order Entry

A Buy Order Entry is the request to place a buy order .Once the user click on this option the below mention window will appear in which the user needs to fill the parameter for placing the order.

The screenshot shows the BEST investor browser interface. At the top, there is a status bar with "Nifty : 0.0 [0.0]" and a note: "**Click on 'Refresh' button above to view latest prices". Below this is a navigation bar with "Exchange", "Series", "Search Text", "Product Code", "Buy / Sell", "Price Type", and "Retention" sections. The "Buy / Sell" dropdown is set to "BUY", "Price Type" is "LIMIT", and "Retention" is "DAY". There are also "Submit" and "Reset" buttons.

The screenshot shows a browser window titled "BSE - Google Chrome" with the URL "https://simbest.bseindia.com/BSE/Trade/PutOrder.jsp?f...". The page displays the BEST logo and a "BUY ORDER" dialog window. The dialog contains a table with the following data:

AccountId	TEST-9083
Exchange	NSE
Company Name	TATA CONSULTANCY SERV LT
Symbol	TCS
Series	EQ
Buy/Sell	BUY
Order Type	LIMIT
Product Code	NRML
Quantity	100
Disc Quantity	0
Price (Rs)	1900
Trigger Price (Rs)	0
Valid Till	DAY
Valid Date	
Transaction Password	<input type="text"/>

At the bottom of the dialog, there are "SUBMIT" and "CLOSE" buttons.

3.2 Sell order Entry

A Sell Order Entry is the request for placing a sell order. Once the user click on this option the below mention window will appear in which the user needs to fill the parameter for placing the order. From this window user can also get the script details, best 5 bid and sell offers which is further explained below

The screenshot shows the BEST Investor Browser interface. At the top, there is a blue header with the text "Nifty : 0.0 [0.0]" and a note: "**Click on 'Refresh' button above to view latest prices". Below the header is a red navigation bar with the text "Activate Window" and "Go to Settings to ac". The main form is white and contains the following fields:

Exchange	Series	Search Text	Product Code	Buy / Sell	Price Type	Retention
NSE	EQ		NRML	SELL	LIMIT	DAY
Company Name	Symbol	Qty	Disc Qty	Price		
TATA CONSULTANCY SERV LT	TCS					

Buttons: Submit, Reset

The screenshot shows a window titled "BSE - Google Chrome" with the URL "https://simbest.bseindia.com/BSE/Trade/PutOrder.jsp?3...". The window displays the BEST logo and the heading "SELL ORDER". Below the heading is a table with the following data:

AccountId	TEST-9083
Exchange	NSE
Company Name	TATA CONSULTANCY SERV LT
Symbol	TCS
Series	EQ
Buy/Sell	SELL
Order Type	LIMIT
Product Code	NRML
Quantity	100
Disc Quantity	0
Price (Rs)	1900
Trigger Price (Rs)	0
Valid Till	DAY
Valid Date	
Transaction Password	

Buttons: SUBMIT, CLOSE

BEST – Investor Browser

From this window user can also get the scrip details, best 5 bid and sell offers which is further explained below:

The user must enter the following details in the Buy Order Entry dialog:

Exchange:	The user must select the exchange as NSE to place orders for scrips or contract.
Company Name:	The user must select the company Name for which order needs to be placed.
Symbol:	The user must select the symbol or series in which user wants to place the order.
Product Code:	The user must select the product code. The following product types are applicable to NSE: <ol style="list-style-type: none">1. <u>NRML</u> – This product should be selected if the user wants to take a carry-forward position.2. <u>MIS</u> – This product should be selected if the user wants to take an intra-day position.3. <u>CNC</u> - This product is use to place the delivery product.
Buy/ Sell:	The user can select whether he wants to place a buy or a sell order.
Price Type:	The user can select whether he wants to place a Limit order or a Market order. <ol style="list-style-type: none">1. A Limit price type allows the user to specify a limit price above which a buy order cannot be executed2. A Market price type allows the user to place the order at the market price.3. A Stop Loss price Type allows to put the Trigger price along with the limit price. When the Trigger price is hit the order will go into the market with the limit price specified.
Retention:	The user must select the validity of the order as a Day order or an IOC order.
Expiry Date:	The user must select the Expiry Date for the future and option contract.
Qty:	The user must enter the quantity or units of the contract that he wishes to buy or sell.
Disc Qty:	The user must enter the disclosed quantity in percentage terms that should be disclosed in the exchange order book to other buyers or sellers.
Price:	The user must enter the limit price (in case of a limit order) at which price he wishes to buy or sell the contract.

BEST – Investor Browser

- ⤴ The user can place the order to the exchange by clicking on '**Submit**'.
- ⤴ If the user wishes to re-enter the details, he can click on '**Reset**', which will clear the existing entries and allow entering fresh details.

3.3 Basket Orders

The user can create a normal basket by adding individual orders into a basket and placing them at one go. Any combination of Order Type, Product Type, Contract Information, Quantity, and Price can be entered to create a basket. This allows the user to place orders multiple scrip or contract or with different transaction type i.e. Buy/Sell. Once the user has entered all the relevant details as mentioned above, the user can click on '**Add**' to add the scrip/contract to the basket. The user can place the basket at one go, by just clicking on '**Place**'. In case the user wishes to save the basket to a file, one can do so by clicking on '**Export**'. A dialog will appear prompting the user to save the file as .csv type by entering the file name and selecting the file location where the file needs to be saved. This is used if client wish to import the same basket again in future. The user may also load orders from a file created. The file must be of .csv or .txt type and created in the appropriate format. This is the same as the format in which the file gets saved during '**Export**'. The user simply needs to click on '**Browse**', then select the file from the file path and click on '**Open**'. The orders in the file will get automatically loaded to the basket. In case the user wants to re-enter the details for an order to be added to the basket, he may do so, by clicking on '**Reset**'. This will clear existing data and allow the user to enter fresh data.

The screenshot shows the 'Basket orders' application window. At the top, there are input fields for 'Exch' (NSE), 'ScripName' (ICICIBANK-EQ), 'OrdType' (Limit), 'PCode' (MIS), 'Buy/Sell' (BUY), 'Validity' (DAY), 'TotalQty' (1), 'Price' (1000), 'DiscQty' (0), and 'TrigerPrc'. A 'Go' button is located to the right of these fields. Below this is a table with the following data:

Exchang	TradingSymb	ActId	TransType	Validity	Qty	Price	OrderType	TrigerPrice	DiscQty	LoginId	OrderMode	ProdCode
ISE	ICICIBANK-E	HANUMAN-OTP	B	DAY	1	1000	Limit	0	0	HANUMAN-OT	true	MIS

At the bottom of the window, there are buttons for 'Reset', 'Export', 'Place', 'Add', and 'Browse'. Below these buttons are input fields for 'BuyQty' (1), 'BuyVal' (1000.0), 'SellQty' (0), 'SellVal' (0.0), 'NetQty' (1), and 'NetVal' (-1000.0).

3.4 After Market Orders (AMO)

BEST allows the end users to place after market orders which will be stored at the server level. On the next trading day, the admin has to click on Place AMO orders option in Admin to send these orders to the exchange. For placing after market orders user needs to select the After Market Order (AMO) tab.

The screenshot shows the BEST Investor Browser interface. At the top, there is a navigation bar with tabs for Trade, F&O, Position, FundTransfer, Alerts, and Account. Below this is a sub-navigation bar with options like Market Watch, Cancelled Orders, Rejected Orders, Order Book, Traded Orders, AMO, Exchange Message, and Exchange Status. The main area displays a table of securities with columns for Ex, Trading Symbol, Name, Buy Rate, Sell Rate, L1 Price, LT Qty, %, Vol, Open, Close, High, Low, Open Int, and Last Traded Date. Below the table is a search form for Nifty - 0.0 [0.0] with fields for Exchange, Series, Search Text, Product Code, Buy/Sell, Price Type, Retention, Company Name, and Qty.

3.5 Spread Orders

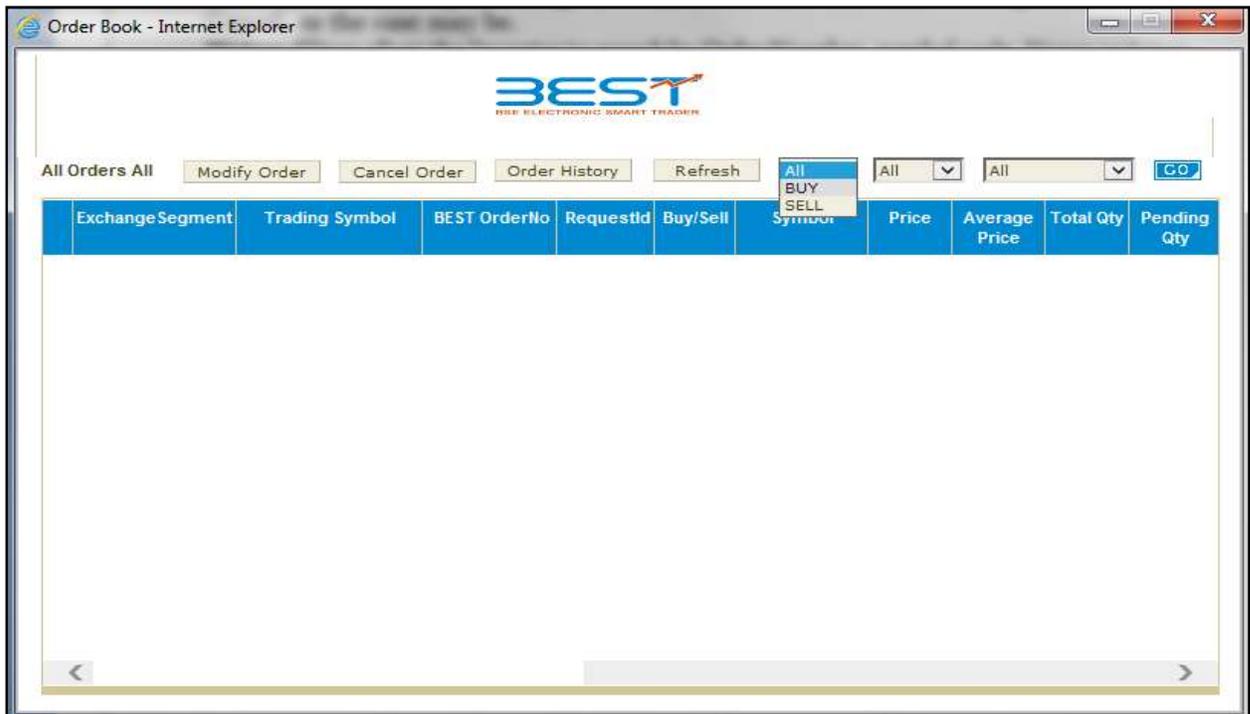

The spread order entry window allows the user to place spread orders between two contracts in NFO. The user can long-roll or short-roll any positions, and try to achieve the desired spread in this manner. User can place orders for Spread contracts, Two Leg order and Three Leg Order from the same window.

The screenshot shows the BEST Spread Order Entry window. It features a form with fields for Buy/Sell, Instrument Name, Symbol, Expiry Date, Option type, Strike Price, Qty, and Price. Below the form are dropdown menus for Exchange, Order Type, Validity, and Product, along with Submit and Close buttons.

4. Order Book

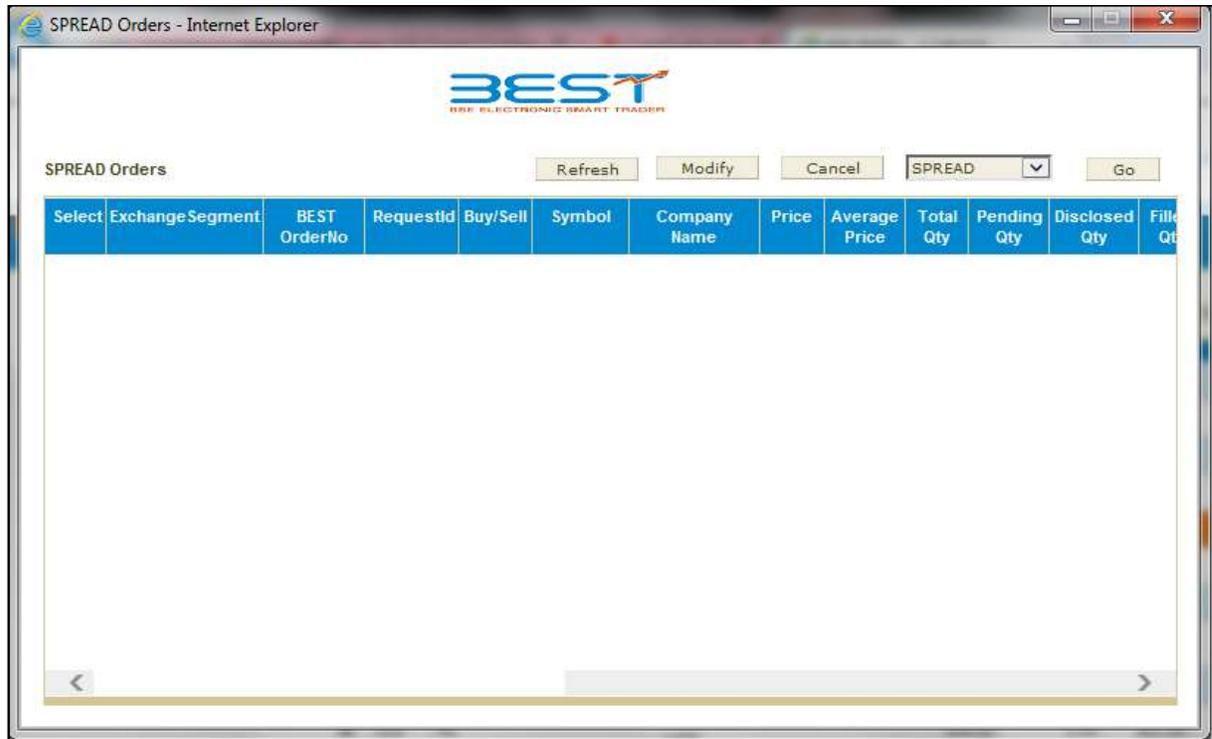

The Order Book provides details of all the orders placed by the user. These include orders placed to the exchange, open orders or partially traded orders, traded orders (completed), rejected orders and cancelled orders. The user can also modify or cancel an Open Order from this window, by selecting the order from order book and clicking on Modify or Cancel, as the case may be.

History filters allow the Investor to search by Order Number, symbol code, Name and time Period. The Investor user can see the details of the orders using the Order History Screen. The Order book screen displays the Security Code, Name, Order Id, Transaction Type, Settlement Type, Order type, Order price, Ordered Quantity, Executed Quantity, Pending Quantity, Retention Status, along with the execution status. In order to cancel or modify a particular order the investor can select the Order from the Order history and either modify or cancel it.

16. Change Password

The user can change his login password using this option. The password policy used is described below:

- For encryption of passwords, we use 128-bit encryption key with a proprietary logic, also have an option of storing it with 128-bit encryption key and AES Encryption method.
- The system requests an ID & password for logging in.
- The password is encrypted before transmission.
- The password is stored in an encrypted format in the database.
- Change of password is mandatory for the first time user.
- Change password cannot be the same as of the last 3 passwords.
- User cannot login after THREE consecutive wrong passwords & the user can only login after resetting the password. Resetting of password is done by the administrator.
- The password should be of minimum 6 characters & maximum 12 characters in length
- It must be Alpha numeric.
- The password will be checked against log-in ID. The login id & password cannot be the same.
- Space is not a valid character in the password
- Password expires automatically after 14 trading days forcing the user to choose a new password.
- Password can be changed by the users at any time as per user's will.
- Special character is allowed in password.

BEST – Investor Browser

The screenshot shows a web browser window titled "Change Password - Google Chrome" with the URL "https://simbest.bseindia.com/BSE/Trade/ChangePassWord.jsp". The page features the BEST logo and a "Change Password" form. The form contains the following fields:

Change Password	
User Name	TEST-9083
Old Password	<input type="password"/>
New Password	<input type="password"/>
Confirm Password	<input type="password"/>
Old Transaction Password	<input type="password"/>
New Transaction Password	<input type="password"/>
Confirm Transaction Password	<input type="password"/>

At the bottom of the form, there are two buttons: "Change" and "Close".
