## Introduction to BEST

**BEST MOBILE TRADE** Application gives the Investor Clients of the Brokerage House the convenience of secure and real time access to quotes and trading across several exchange venues including BSE, NSE, MCX and NCDEX. The services are specifically designed to meet the ever-changing needs of the Stock market and investors.

**BEST MOBILE TRADE** Application has two levels of password for the investor. One password called the Login Password to allow the investor to login into the website and another password called the Transaction Password to place orders. Both the passwords are stored securely and totally encrypted.

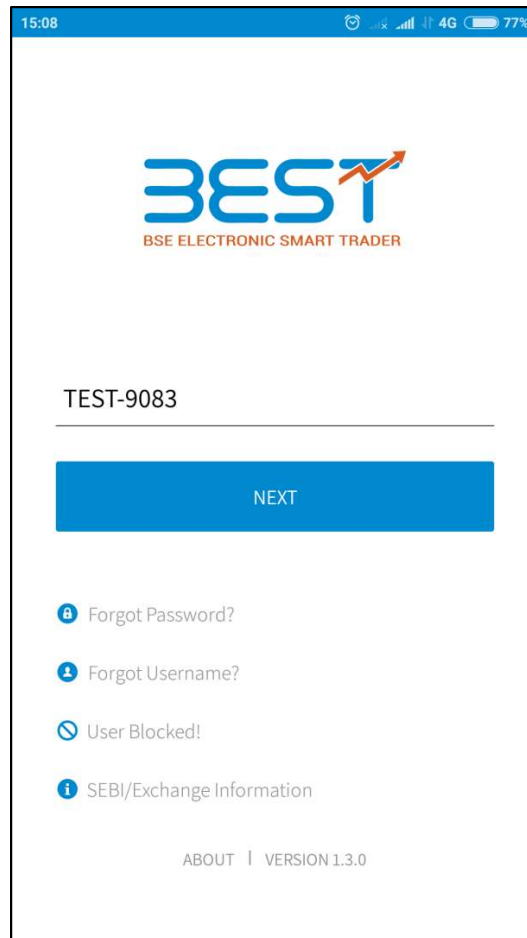

The Investor would be able to

- Place Orders
- Modify, Cancel Orders
- View Order Book
- View Trade Book
- View Position Book
- View Holdings
- View Limits
- View Quotes
- View Market Picture (MBP)

## 1. Login

### 1.1 Login Screen

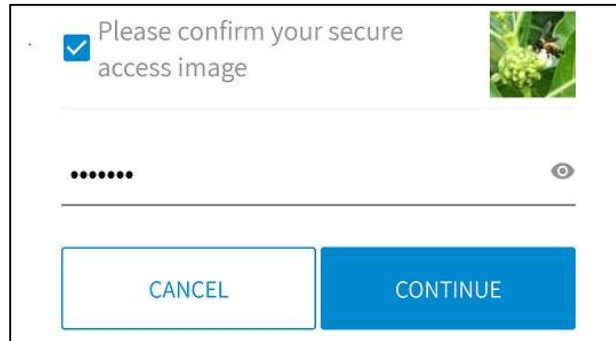

The login screen is visible when the user starts the mobile application. The Valid User name must be entered, and the user should click on the Sign In button.

On clicking 'Sign In' Button, The following login window will appear where user has to enter Login ID & Password and confirm the Image Authentication.

## 1.2 Image Authentication

During registrations client would need to select from the list of images for verification of sites/server for future logins and same will confirmed during every login by user as shown in below window.

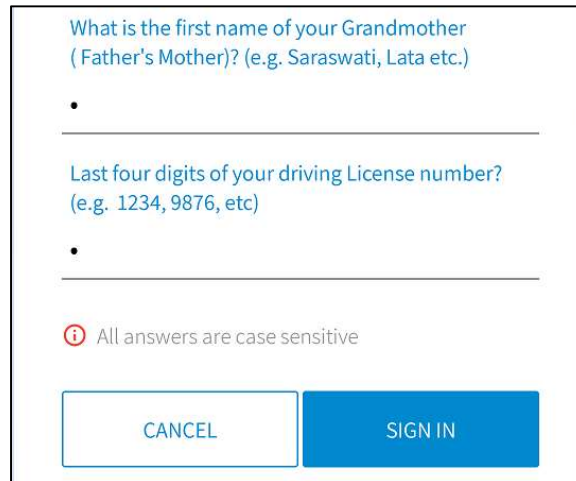

Please confirm your secure access image 

..... 

## 1.3 2FA Authentication

SEBI has mandated 2FA authentication for login. SEBI circular no CIR/MRD/DP/ 8 /2011.Question based authentication would be implemented in BEST Mobile Trade as a second factor of authentication (2FA) by the system.

Broker can opt for any one of the option. As an Authentication of the server by the user, images would be displayed as above.

What is the first name of your Grandmother (Father's Mother)? (e.g. Saraswati, Lata etc.)

•

\_\_\_\_\_

Last four digits of your driving License number? (e.g. 1234, 9876, etc)

•

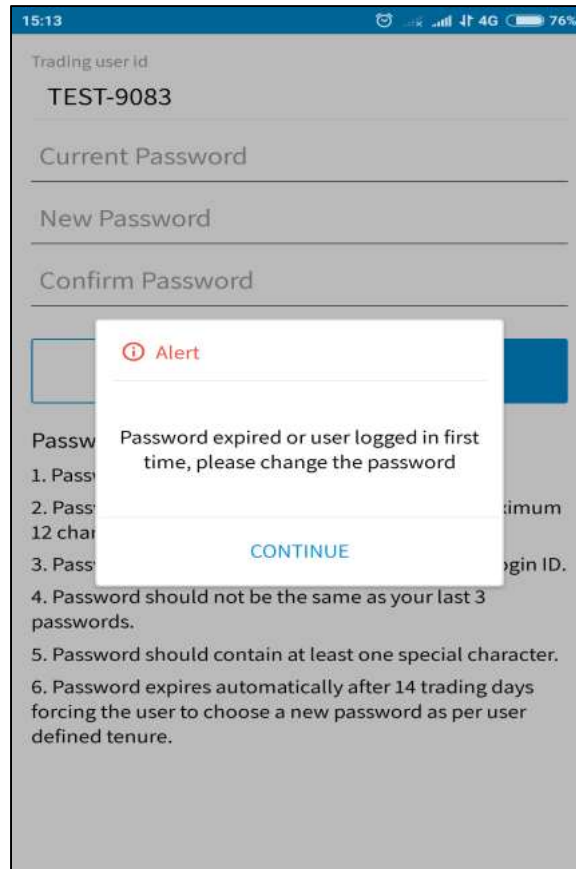

\_\_\_\_\_

 All answers are case sensitive

## 1.4 Change Password

When the user login for the first time or if the password has expired, the following message prompt will be displayed.

When the user clicks on the OK button, the window for resetting the login password is displayed as follows.

The user needs to type in the login and transaction old password, the new password, and confirm the new password in the respective fields provided. On clicking on the 'Change' Button, the password gets reset and the following confirmation message will be displayed.

## 1.5 Password Policy

Following is the password policy followed in the BEST MOBILE TRADE Application:

- For encryption of passwords we use 128-bit encryption key with a proprietary logic, also have an option of storing it with 128bit encryption key and AES Encryption method.
- The system requests an ID & password for logging in.
- The password is encrypted before transmission.

## BEST – Mobile Trade

- The password is stored in an encrypted format in the database.
- Change of password is mandatory for the first time user.
- Change password cannot be the same as of the last 3 passwords.
- User cannot login after THREE consecutive wrong passwords & the user can login only after the password is reset by the administrator.
- The password should be of minimum 6 characters & maximum 12 characters in length.
- It must be Alpha numeric.
- The password will be check against the login ID. The login ID & password cannot be the same.
- Space is not a valid character in the password.
- Password expires automatically after 14 trading days forcing the user to choose a new password.
- Password can be change by the users at any time as per will.

## 2. Home Page

After the user has successfully logged in, the following home page window gets displayed, where the user has the option to get quotes, place orders, create market watch groups, view order book, Trade book, Position book, holdings, Limits, Set Alerts, Alert history, TopN, Index details, Modify 2FA questions, user details and so on.

The screenshot shows the mobile application interface. At the top, there is a status bar with the time 15:16, signal strength, 4G, and 75% battery. Below the status bar is a navigation bar with a hamburger menu icon, a document icon, a pie chart icon, a bell icon, and a search icon. The main content area displays market data for NIFTY (0.00, +0.00%) and SENSEX (35,194.79, +0.00%). Below this is a section for market watch with a search bar containing 'test' and a tab labeled 'MKTWATCH'. A table lists market watch items with columns for SYMBOL, LTP (Last Traded Price), and CHANGE (% Change). The table contains five rows of data for various futures and equities.

SYMBOL	LTP Volume	CHANGE % Change
ACC <small>NFO</small> 29 NOV 18 980.00 CE	0.00 0	0.00 NA
USDINR <small>CDS</small> 28 NOV 18 FUT	73.6450 0	0.3925 +0.54%
GOLD <small>NCO</small> 05 DEC 18 FUT	0.0000 0	0.0000 NA
NIFTY <small>NFO</small> 29 NOV 18 FUT	10,191.90 0	17.35 +0.17%
RELIANCE-EQ <small>NSE</small> RELIANCE INDUSTRIES...	1,400.00 0	122.50 +9.59%

At the bottom of the screen is a blue navigation bar with three icons: a home icon labeled 'HOME', a scanner icon labeled 'SCANNERS', and a news icon labeled 'NEWS'.

The user can logout from BEST Trader by clicking on 'Logout' under the File Menu or by using the shortcut key F10. Once the user attempts to close the application, a confirmation pop-up will appear asking whether the user wants to save market settings or not. If user selects “Yes”, the entire settings will be saved, if user selects “No”, it will not save the settings.

### 3. Market Watch

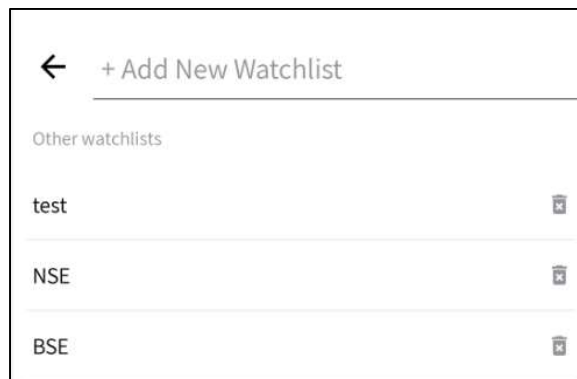

#### 3.1 MarketWatch

##### Manage MarketWatch

The user can create a Market Watch of scrips for which he wants to view latest market feeds by clicking on the 'Add New' button from the 'Market Watch' window.

The user must enter the Name for the Market Watch that he wants to create. After creation of Market Watch

Market Pro %	NA

EDIT CONFIRM BUY

'EDIT' button will take back to order entry window and 'CONFIRM BUY/SELL' will submit order to exchange, and order status will be viewed in order book window

## Types of orders

### Limit Order

A limit order is an order to buy or sell a security at a specific price. A buy limit order can only be executed at the limit price or lower, and a sell limit order can only be executed at the limit price or higher.

E.g. If the current market price of Idea Cellular is Rs.75 & you wish to Buy at Rs. 70 or Sell at Rs. 80, you have to place a Limit Order.

**Market Order**

A market order is an order to buy or sell a stock at the current market price. The advantage of a market order is you are almost always guaranteed your order will be executed.

**Stop Loss Limit Order**

A stop loss limit order is an order to buy a security at no more (or sell at no less) than a specified limit price. This gives the user some control over the price at which the trade is executed, but may prevent the order from being executed. A stop loss buy limit order can only be executed by the exchange at the limit price or lower. A stop loss sell limit order can only be executed at the limit price or higher.

E.g. If you have short sold NTPC @ Rs.145 in expectation that the price will fall, in case of price increase, you can limit the loss by placing a Stop Loss Buy order. In the Buy Screen we can put the trigger price @ Rs.150 and Limit Price @ Rs.155. As soon as NTPC's last traded price rises above Rs. 150, a limit order for NTPC @ Rs. 155 will get activated.

**Stop Loss Market Order**

A stop loss market order is an order to buy or sell a security at the current market price prevailing at the time the stop order is triggered. This type of stop loss order gives the user no control over the price at which the trade will be executed. A sell stop market order is an order to sell at the best available price after the price goes below the stop price. A sell stop price is always below the current market price. A buy stop market order is typically used to limit a loss (or to protect an existing profit) on a short sale. A buy stop price is always above the current market price.

## 4.2 Order book

The user can view all the details of orders placed, by clicking on 'Order Book'. The user can view all orders (open/complete/cancel), open order, complete orders and cancel order as shown in below window.

Order Book			
<span>ALL</span> OPEN    COMP    CAN			
SYMBOL	Date	Product Status	Pend / Qty Price
<b>B</b> TCS <small>BSE</small>	16:41:14 pm	NRML OPEN	10 / 10 2,490.00
<div style="display: flex; justify-content: space-around;"> <span>+Alert</span> <span>+MW</span> <span>Detail</span> </div>			
<b>B</b> TCS <small>BSE</small>	15:41:01 pm	NRML COMP	0 / 10 2,500.00
<b>B</b> RELIANCE <small>BSE</small>	15:00:44 pm	NRML COMP	0 / 1 980.00
<b>B</b> INFY <small>BSE</small>	14:54:22 pm	NRML COMP	0 / 1 1,165.00
<b>B</b> SBIN <small>BSE</small>	14:51:48 pm	NRML REJC	0 / 1 250.00

### Order Details

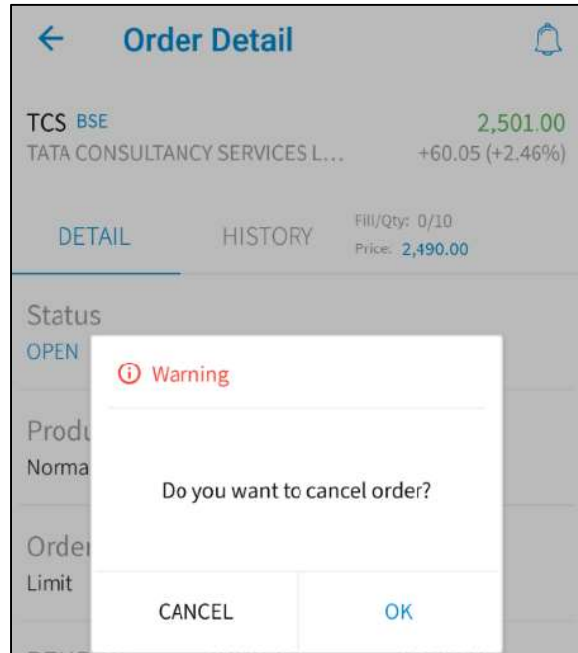

The user can select a particular order for which he requires the order details. User Can get final detail information of order in Status like “OPEN/CANC/REJC/COMP, etc” and many other fields like Product, Order Type, Trigger price, Avg Price, Qty Details, Scrip/Contract Name, Internal Order No., Exchange Order No., Time details, etc.

User has option to cancel and modify order in same screen

### Cancel (Order Cancellation)

To cancel an order, the user must select the required open order that needs to be cancelled, from the order book and select 'cancel order'. The following 'Confirmation Message' will appear from where the user is required to confirm the order cancellation.

When the user clicks on 'OK', the order will get cancelled, and this status can be checked in the Order Book.

### Edit (Order Modification)

To modify an order, the user must click the 'Edit' option. The following window appears to enter the new parameters for order modification

The screenshot displays the 'Modify Order' interface. At the top, there is a back arrow, the title 'Modify Order', and a notification bell icon. Below this, the stock information is shown: 'TCS BSE' with a price of '2,501.00' and a change of '+60.05 (+2.46%)'. The company name is 'TATA CONSULTANCY SERVICES LTD.'. The order details include: 'Nest order no' 180515000000052, 'Exch Order No' 1526360416316018450, 'Transaction Type' BUY, 'Product Type' NRML, 'Retention Type' DAY, and 'Order Type' LIMIT. The 'Price' is 2490, 'Pending Qty' is 10, and 'Disc Qty' is 0. A green button at the bottom is labeled 'REVIEW BUY ORDER'.

Company Name	TATA CONSULTANCY SERVICES LTD.
Nest order no	180515000000052
Exch Order No	1526360416316018450
Transaction Type	BUY
Product Type	NRML
Retention Type	DAY
Order Type	LIMIT
Price	2490
Pending Qty	10
Disc Qty	0

The quantity and/ or price of the order can be modified by the user by entering the new details. Once the user modify order and 'Submit', the 'Order Status' window appears and Once the user clicks on 'OK', the modified order can be seen in 'Order Book'

### Order History

The user must select 'Order History' to view the history of that order, that is, the user will be able to view the current status as well as details of each and every step of the status, such as Order Received, Validation Pending, Open Pending, Open, Rejected, Complete and so on.

Order Detail

### Order Alerts

User can able to set alerts for their pending orders like Cancelled, Modified and Complete.

The screenshot displays the 'Add Alert' screen in a mobile application. At the top, there is a back arrow and the title 'Add Alert'. Below this, there are three tabs: 'STOCK', 'INDEX', and 'ORDER', with 'ORDER' being the active tab. The form contains the following fields:

- Exchange:** A dropdown menu currently showing 'BSE'.
- Order:** A dropdown menu currently showing 'TCS|180515000000052'.
- Alert If:** A dropdown menu currently showing 'Select'.

Below the 'Alert If' dropdown, there is a section titled 'Send alert on:'. It contains two checkboxes:

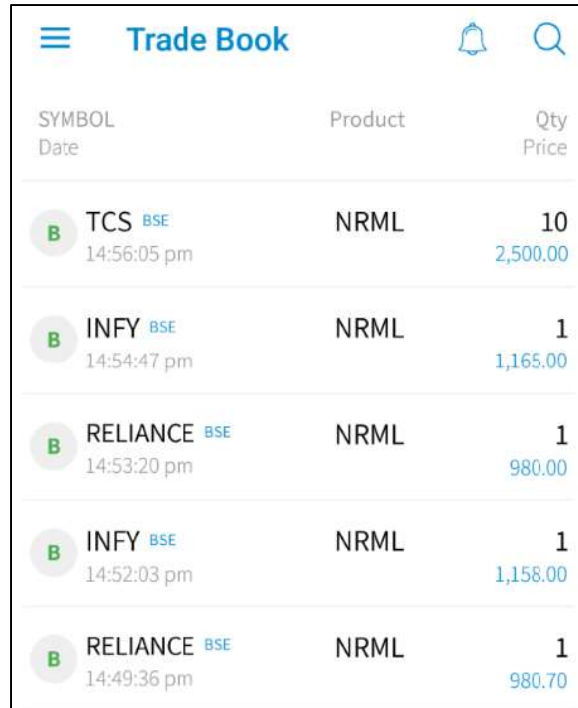

- abc@yahoo.com
- 

The 'Alert If' dropdown menu is open, showing three options: 'cancelled', 'modified', and 'complete'.

User can able to receive alert via registered Email

### 4.3 Trade book

The user can view the entire list of all traded orders and their details by clicking on 'Trade Book' in the 'Home' window. The user can see details like Symbol, Exchange, Product, Qty and price.

The screenshot shows the 'Trade Book' screen in a mobile application. At the top, there is a blue header with a menu icon, the text 'Trade Book', a bell icon, and a search icon. Below the header is a table with the following columns: 'SYMBOL' (containing a green circle with 'B', the stock symbol, and the exchange 'BSE'), 'Date' (containing the trade time), 'Product' (containing 'NRML'), 'Qty' (containing the quantity), and 'Price' (containing the price). The table lists five trades for TCS, INFY, and RELIANCE.

SYMBOL	Date	Product	Qty	Price
TCS BSE	14:56:05 pm	NRML	10	2,500.00
INFY BSE	14:54:47 pm	NRML	1	1,165.00
